Manage Your Business Pain-Points With Zoho Integration

A Smarter Way To Solve Your Business Challenges

Want to streamline your sales,
marketing, customer support,
and everything in between?

Use Zoho development services to get a complete collection of online applications and utilities to make your business effective and improve customer satisfaction.

Add a business suit to your existing system that will reach out to the right prospects, at the right moment, to engage them across every channel. Integrate a fully functional, cost-effective, and scalable phone system to unify a real-time system to deliver better customer service.

At Briteph Design and Automation, our primary goal is to serve the customers with a top-notch management tool that handles sales, marketing, operations, and IT helpdesk. We can help you in building a stronger relationship with your customers. Our certified Zoho consultants understand your requirements in detail and will customize your Zoho suite. With Zoho integration, you will get the best application that will ease your process and get the best results.

Zoho Solutions We Offer

Zoho CRM

With our Zoho CRM consultants, engage with your potential customers across every channel via a single platform. Integrate and manage your online applications and correctly reach out to your prospects.

Zoho Creator

Automate each and every process with Zoho Creator. Do everything with this multi-platform app builder, and build your own application, or get started with a ready-made one.

Zoho Reports

Get your entire team connected and put the insights into action by creating a slew of reports like planned reports, hours utilized, burn-down charts, project status, and actual reports.

Zoho Recruit

Automate your hiring process in simple steps. Get powerful recruiting software and tracking systems that can manage and streamline your hiring process.

Zoho Invoice

Manage all your invoices and transactions on a single platform. Draft sorted invoices and send payment reminders automatically.

Zoho Books

Integrate Zoho QuickBooks into your system and get a powerful and quick invoicing platform for all your business needs.

Zoho Creator Developer

Zoho Creator runs in the cloud, which lets you avoid the conventional method of development by hassle-free selecting and configuring the Operating System. The back end of the application and the complex coding is all covered by the system, giving you the opportunity to simply Plug 'n' Play. All you require is a web browser to edit or access the application.

The entire process is standardized so that you can focus on doing what you do the best.

Benefits of Zoho Implementation in your Business

From providing comprehensive information to offering solutions to simplify your business processes, we can help you break your own sales records. Our Zoho consultants will help you with

Growth

We build a digital strategy that accurately measures your mobile development spend and the cost to acquire and retain your mobile users.

Increased ROI

Zoho helps in automating a lot of your tedious processes, saving a lot of time, money, and efforts of your resources.

Security

Zoho has high-security approaches to protect and support redundancy, privacy, and data breaches.

Analysis

Zoho has high-security approaches to protect and support redundancy, privacy, and data breaches.

Business Intelligence

Get highly refined data along with simplified reports to easily understand the performance of your workforce and business.
